

EDITORIAL

After the very promising launch of two exceptional products (the 850 Wood ITTF competition table and the 700M Crossover outdoor leisure table) in September 2015, we were very keen to offer a range of products tailored to individual needs. With the launch in March 2016 of our complete range of Crossover tables, it's done! The Outdoor Performance segment (Crossover 700M, 500M, 400M) will offer an original playing experience and functionality, whilst the Outdoor Sport segment (Crossover 300S, 250S, 150S, 100S) will provide fully reliable access to the delights of ping. I hope you enjoy many happy times around your new Cornilleau ping-pong table.

MASTERED KNOW-HOW

Practice methods are evolving, so too are our products. Moreover the reverse is also true... Cornilleau is developing in the global market place thanks to high quality, innovative products with a distinctive design. Through the development of a brand new generation of wheels, we have for example succeeded in improving the mobility and manoeuvrability of our tables, without ever making the slightest compromise in terms of safety, stability and sturdiness. All the Cornilleau tables are developed and manufactured in France, within the very hub of the business, in Bonneuil-les-Eaux in the Oise department (Picardy), the Cornilleau family's native village. The research and development laboratory associated with the marketing unit are here at the heart of the factory: 'Made in France' grey matter intended to devise, design and manufacture all the products, for today and tomorrow.

THE CONFIDENT CHOICE

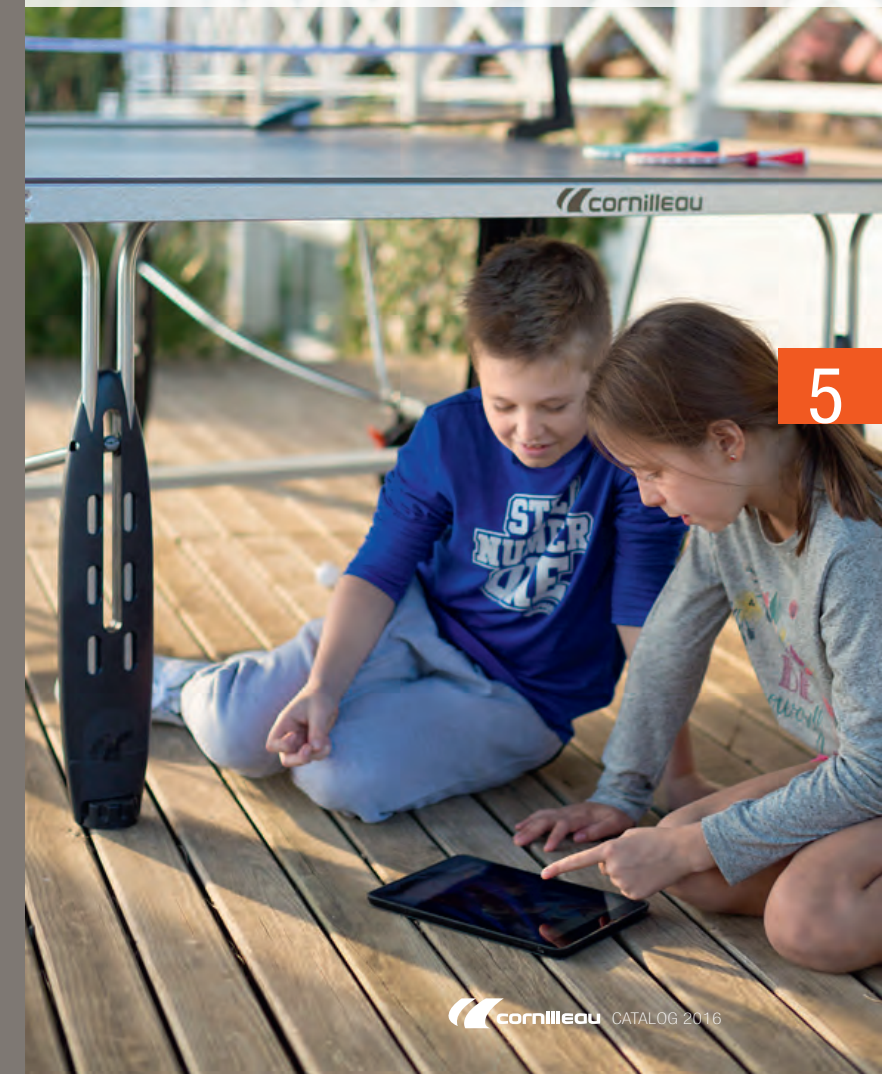

Cornilleau guarantees its tables against any manufacturing defect for a period of 3 years. This guarantee is extended to 10 years for outdoor tables. This 10-year warranty applies to all the various components, with the exception being the wear parts (wheels, net and net posts). All our tables adhere to the European safety standard EN 14468. Nevertheless, in order to ensure the highest level of safety, Cornilleau has positioned itself a long way above this standard.

Each step in the manufacturing process is submitted to an exhaustive quality check of components and we also pay extreme attention to assembly precision. Your total satisfaction is our first priority.

PING TAKES TO THE STREET

PING! ENGLAND

Throughout the summer 2015, the 5th edition of PING! ENGLAND gathered together nearly 500,000 participants, who for 2 months once again had the opportunity to play on over 600 Cornilleau tables spread right across Britain, including around a hundred in the capital itself. Ping is so British!

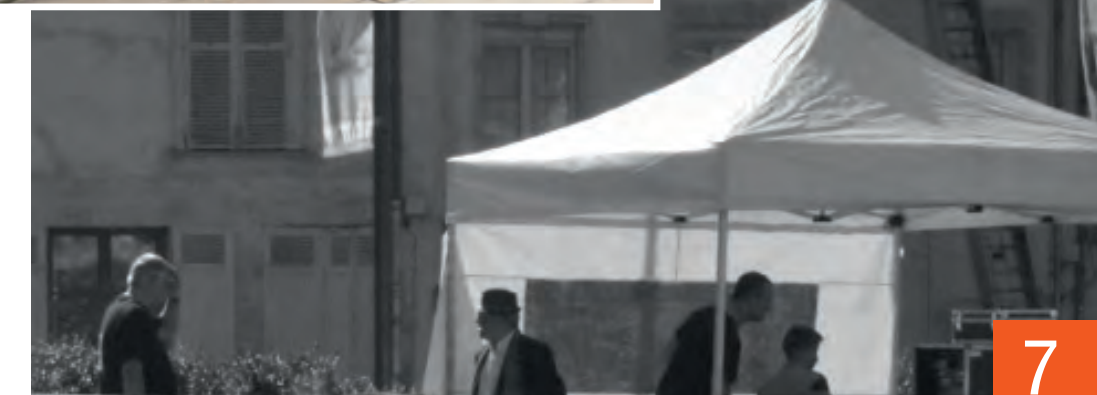

Mayor of London, Boris Johnson

PING TOUR

The Ping Tour is a truly unique promotional tour, orchestrated by the French Table Tennis Federation and Cornilleau. The 2015 edition, which ran from 6 June to 26 September, encompassed 20 of France's largest cities so as to enable the greatest number of people to experience all the Ping universes. It proved to be a roaring success with over 50,000 visitors. Roll on the 2016 edition!

A CHAMPION'S EXPERTISE

World champion, double Olympic medallist and ambassador of the Cornilleau brand since 1993, Jean-Philippe Gatien is in charge of Team Cornilleau. Day in day out, he guides our young athletes in their quest for excellence by sharing with them his experience at the pinnacle of top-level competition and giving them an honest perspective on all the various performance levers. Adding genuine value to sponsorship at Cornilleau, the support of athletes is very much at the heart of the brand's concerns and is Jean-Philippe's top priority.

TEAM CORNILLEAU

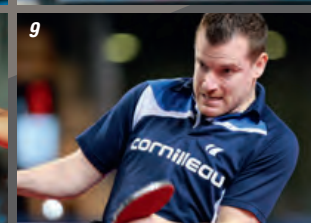

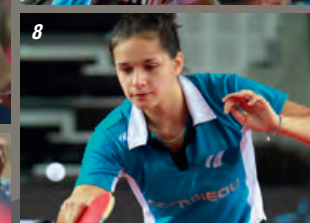

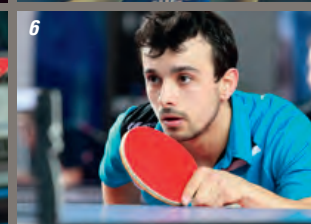

SURPASSING ONESELF

"Galvanised by some very fine results (silver medallist in the European Team Games, bronze medallist in the European Team Championship, 4th in the ITTF Europe Top 16 Cup in the individual competition), Simon Gauzy has been able to assert himself as one of the best performers in the Bundesliga, at the tender age of 21. A genuine leader of Team Cornilleau, Simon has shown himself to be exemplary in the way he tackles his preparation and the major events. Now making advances in the world's Top 30, today his efforts are beginning to be rewarded. However, he's very much aware that there is still a long way to go to reach the top of his game... For his part, Hugo Calderano has played a blinder over the course of the summer 2015 by becoming double gold medallist at the Pan American Games (individual and team). Aged 19, Hugo is a young chap with huge potential and is consistently hardening up his game alongside Simon, his teammate in Ochsenhausen. 2015 has been particularly successful for Team Cornilleau and hopefully the same will be true of 2016, the Olympic year. As such, it seems fitting to recall the Olympic values: excellence, friendship and respect... We try to convey these values on a daily basis through the support offered to the members of Team Cornilleau."

NEW ULTRADURABLE OUTDOOR TABLES

CROSSOVER OVERSIZE DOUBLE WHEELS

CLEARANCE

The diameter (200mm) of our new Oversize wheels, combined with their ultra-robust design, offers unique clearance (kerbstones, terraces, pavements, etc.).

FLEXIBILITY

The bracket links the two wheels at the very spot where there are the greatest mechanical stresses. As such, our engineers have taken very special care with the design of this part, in order to make the table incredibly easy to manoeuvre in any situation.

MANOEUVRABILITY

The greater the number of wheels the greater the load-bearing capacity. As such, the use of wide, twin wheels (38 or 32mm according to the models), with a flattened composite tyre, significantly improves the manoeuvrability of the table, especially on varied (lawn, gravel, wooden terrace, etc.) and/or uneven terrains.

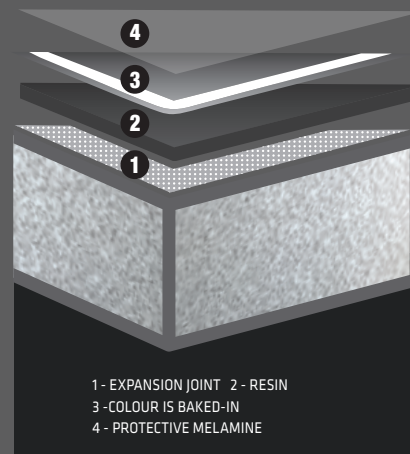

11

**OUTDOOR
ULTRADURABLE**

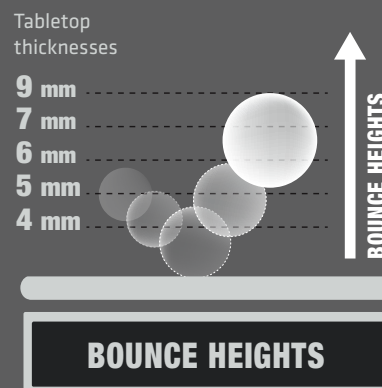

HIGH QUALITY MATERIALS

ADAPTED TO MEET YOUR NEEDS.

Cornilleau has been a pioneer in «outdoor» tables for the garden. They are designed with anti-corrosion materials ensuring resistance to bad weather.

BOUNCE HEIGHT DEPENDS ON THE THICKNESS OF THE PLAYING SURFACE CORNILLEAU TABLES

Panels in solid resin laminate, resistant to racket blows. The thicker the panel (4 to 9 mm), the better the bounce.

ULTRADURABLE**

AN EXTRAORDINARY STANDARD OF SAFETY

INTEGRATED DOUBLE SECURITY

Using a central release handle, the table can be opened and closed with extreme ease. The DSI system has 16 locking points. The table is fully locked in playing and storage positions. What's more, because of its unique system, if a child opens the table and releases the handle, the panel automatically locks at 65°, thereby avoiding any risk of accident. Finally, if the top is not fully locked in the playing position, a second locking level stops the top from flipping over.

COMPACT TECHNOLOGY

EASY TO STORE

The patented « Compact Technology » system ensures optimum safety, easy movement and minimizes storage space requirements.

THE ADVANTAGES OF OUR LEISURE TABLES

OVERSIZE DOUBLE WHEELS

The diameter (200mm) of our new Oversize twin wheels, combined with their ultra-robust design, offer unique clearance, manoeuvrability and flexibility.

RETRAC- TABLE NET

The net swivels automatically between the two panels when you close the table, further optimizing storage space and providing better safety when stored.

EASY TRACK

This handle (2 on the 700M and 1 on the 500M) enables you to easily lift the table over any obstacles (step, edge of the terrace, doorway).

ADJUS- TABLE FEET

Wide leg pads enable you to adjust the height of the feet and ensure tabletops are perfectly level where the ground is uneven.

**TO MAKE FAMILY LIFE
SIMPLER AND SAFER**

The range of Outdoor Performance tables (700M, 500M, 400M Crossover) offers an original playing experience and functionality.

500M
CROSSOVER

A titan of a table for full-on rallies: with the 500M Crossover, you'll be striving for excellence. This table has the power to make your neighbours jealous, as the care that goes into each and every detail is palpable. With its sturdy, aesthetic outline, it has been designed for intensive practice. A look, a challenge, the confrontations are unavoidably merciless! A duel in the sunshine begins in what is a truly unique playing experience. Ultimately, friendships are built and further strengthened once the game is over.

400M Crossover

Made in France

We're a family of sportsmen and women: a whole string of rallies ensues and everyone lets fly. The 400M Crossover takes it like a pro and certainly doesn't skimp on the technical front: solid brakes, twin wheels, perfect return of spin and excellent rebound. With a matt surface that is fiendishly good at reducing the sun's glare, you will no longer be dazzled and the shots will be yours for the taking. A fully equipped table accustomed to all the weather throws at it, for some truly uncompromising games.

FOLDING NET

Made in France

3005 Crossover

The 3005 Crossover cuts quite a dash. Its curved feet convey great stability; its large wheels give it the look of an adventurer, whilst its ample sides are a very practical place to store the colourful rackets. An added bonus is the simplified opening and closing of the folding net, which enables considerable space saving when the table is closed. Equally it enjoys all the benefits of a bigger table enabling some top-flight games at a reasonable budget.

BLISTERED
TOP

SHOCKPROOF

INDOOR

OUTDOOR

The Indoor tables are equipped with a painted chipboard tabletop. The main benefit of this playing surface is the great value for money compared with the rebound quality. That said, this tabletop definitely is not for use outdoors as the material is not designed to cope with bad weather. Rain and, by extension, moisture are its worst enemies (risk of distortion and blistering). The sun's rays are no exception, as they too very quickly damage the surface layer (risk of discolouration). The other major disadvantage of this so-called indoor tabletop is its fragility in the event of repeated impacting and/or friction (impact from a beginner's racket for example). You've got it, we strongly recommend that you opt for so-called Outdoor tables, even when they are exclusively for indoor use (garage, cellar, etc.). Just as high performance for play, Cornilleau's Outdoor tabletops have the advantage that they're weather and shock resistant so they're ultra-durable. That's why we guarantee our Outdoor tables for 10 years (ref. page 5) compared with 3 years for the Indoor versions. So don't wait a second longer, whatever your style of Ping, opt for our Outdoor tables. You won't regret it!

The range of ITTF approved Competition tables (850, 740, 640, 610, 540 Wood) is a perfect combination of very high performance and elegance. Cornilleau is the official supplier for the French Table Tennis Federation.

COMPETITION INDOOR TABLES

 **cornilleau**

*PERFORMANCE
AND ELEGANCE*

COMPETITION INDOOR TABLES

Cornilleau has developed, designed and produced competition level tables for more than 30 years. All our tables comply with European safety standards EN 14468. To ensure the highest safety levels, Cornilleau product compliance goes much higher than this standard and guarantees the tables against manufacturing defects for 3 years.

42

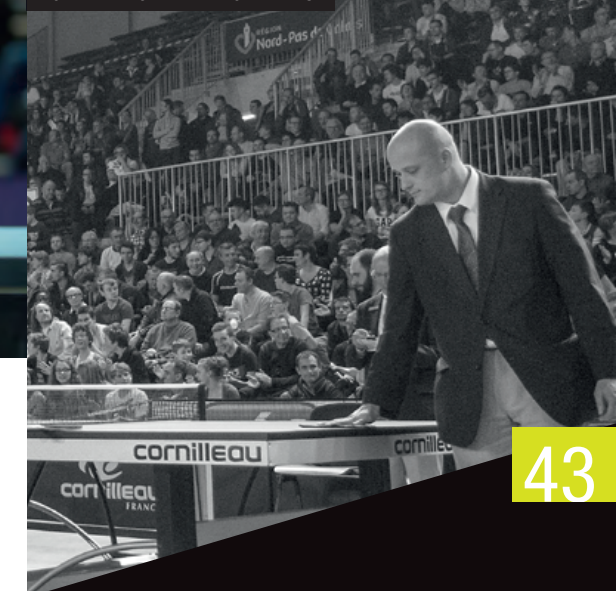

Cornilleau is the first manufacturer to develop this system for competition tables. The patented COMPACT TECHNOLOGY system undoubtedly represents the best offer on the market in terms of storage, safety and ease of use.

Thanks to a central unlocking handle, the table can be opened and closed extremely easily. The DSI system has 16 locking points. The table is fully locked in the playing position and folding position. The safest table on the market.

SKILTOP coating, specific to our competition tables, was developed with the best possible attention to detail. It ensures an extremely reliable and regular bounce, as well as optimum adherence to the playing surface for perfect return of play.

43

WHEELCHAIR PLAY

The leg assembly has been designed to allow for the locking of a chair under the table for wheelchair play. ITTF W standard.

ROBUST MATERIALS

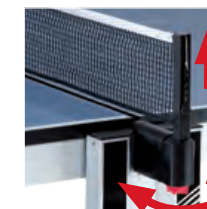

The materials selected for our competition tables are particularly robust (example: sides and feet entirely made of steel).

MINIMUM STORAGE SPACE

The leg assembly has been designed to stack tables during storage, providing minimum storage space. Optimal storage size: 1 table = 65 cm + 45 cm for each added table.

FIXED POSTS

ITTF posts fixed permanently to the table will save you time on each installation. The height of the net can be adjusted without affecting tension.

44

GRAPHITE

The NEXEO GRAPHITE X200, a perfect combination of our expertise in outdoor ping and 'graphite' technologies that have thus far been reserved for the tennis world, is probably the most high performance outdoor racket on the market. It has taken 3 years for this product to come to fruition and the results offer supreme qualities that one might assume would be incompatible: outdoor (weather resistant), incredibly high performance, ultra-durable (shock resistant) and extra light. Don't hesitate for even a second; you too can BOOST YOUR GAME!

NEW

CARBON FIBER®
Carbon fibre inside the blade of the Nexeo X90 increases rigidity for even greater speed.

nexeo

Based on their solid experience of outdoor equipment, Cornilleau's engineers have developed a patented 'four-material durable' version. This outdoor racket stands alone in terms of performance.

**BOOST
YOUR GAME**

SPEED

Its dynamic sponge ensures fast play.

PRECISION AND SPIN

Its innovative covering ensures perfect return of spin.

SOLIDITY AND DURABILITY

Made of strong composite material (carbon for the X90), Nexeo withstands impact and bad weather.

COMFORT

The Nexeo's elastomer handle, with its ergonomic form, ensures optimal grip.

AERO - AERO SOFT: enables optimum transmission to the handle of shock waves created on impact with the ball. The hand's sensory system, with its improved touch interface, immediately processes the sensations necessary to provide the perfect response!

DYNACELL: the optimisation of the nature and structure of the material is the key to the elastic properties of a sponge and it takes energy release to a whole new level. This key now has a name: Dynacell.

OFC OPTI FEEL CONCEPT: the wooden fibres of each layer of plywood, perpendicularly oriented one with the other, significantly improve stability. OFC provides excellent sensations, which immediately translate as greater control and precision.

EFFICIENT CURVE: made of 90% natural rubber, the efficient curve top-sheet provides an unrivalled grip on coverings this fast.

BEGINNERS' RACKETS

BABY PING

There are a whole host of great reasons to encourage children to take up Ping. A sociable sport, which several people can play at the same time, it develops psychomotor skills, concentration and a sharp mind. Refereeing is easy and a tool like BABY PING fast-tracks the learning process so you can start playing and having fun.

DVD

"Ping for 4-7 yr olds". The training method used sets tiny tots on the road to success and encourages the first rallies. Plunging into the child's imagination (the domain of circuses, wild animals and children's stories), a fun-filled theme colours the exercises and recreational circuits (only available in French).

AT SCHOOL

The situations highlighted in the DVD correspond with the French education programmes with real progress evident as the child moves from one situation to the next (first to fifth year primary school age), which will enable the child to acquire new skills, whilst encouraging thought and concentration.

AT THE CLUB

The various situations are organised in such a way as to develop both dexterity and motor skills.

AT HOME

The child's imagination is stimulated through situations that they will be able to practice on their own, with a group or in a duel. This encourages their dexterity and speed of execution, as well as developing values familiar to sport such as respect and working towards a goal.

CHAMPION RACKETS 10-PACK

Ref : 429 022

+ PRODUCTS

- Lightweight: -20%
- Short handle: 9cm
- Slim handle: -15%
- Smaller paddle
- Comfort zones for the hand (softer sides and thumb)

THE PERFECT CLUB PURCHASE, IT COMES IN A ZIPPED NYLON BAG.

This racket is ideally suited to a club's beginners aged 6 to 10 years, thanks to its specific ergonomics (child-size paddle and handle, comfort zones for the hand). Geared towards speed and grip, young beginners will be able to familiarise themselves with spinning. The size of the handle (9cm in length) also enables them to play a backhand shot in the right conditions. 5-plywood blade • ITTF Approved Performa 1 rubbers, 1.5mm • 150g

INITIATION

The two-tone 'Panda' racket means that the different effects can be explored thanks to the quality of the rubber, whilst the thick, shock-absorbing sponge covering promotes improved control. The edges of the blade are softened and naturally the grip has been modified with a shorter (8cm), slimmer handle (2.2cm). It is also more lightweight at just 110g compared with 150g for an adult beginner's racket.

The balls come in a variety of sizes and materials. Made from sponge, they make the initial rallies easier thanks to a slower speed but a dynamic bounce. The large balls measuring 55mm in diameter facilitate both touch and spin. Finally, the two-tone balls mean the player can actually see the ball's rotation.

The Cornilleau product range for competitors (rubbers, wood, clothing, baggage, accessories) enables even the most demanding players to be assured of a winning combination.

*TO FIND
YOUR WINNING
COMBINATION*

THE RE-INVENTED TOP-SHEET

EVERY TARGET TOP-SHEET COVERING DEVELOPED BY THE CORNILLEAU AND MICHELIN EXPERTS (SUPERIOR RUBBER) BOASTS A SPECIAL FORMULATION ENABLING IMPROVED ELASTICITY COMBINED WITH A UNIQUE PIMPLE SHAPE.

TECHNOLOGY TO IMPROVE YOUR GAME

The special formulation and cell structure enable the NEXTENS sponge to interact more efficiently with the pimples below the surface that is in contact with the ball. The GT (GREAT TENSION) evolution in our NEXTENS sponge provides additional strength, as well as transmitting greater rotation onto the ball.

The IN-TENS2 sponge is at the pinnacle of the market's references in terms of the transmission of energy. It fully satisfies the expectations of even the most demanding players by providing enhanced contact with the ball, precision and comfort. It also guarantees maximum enjoyment thanks to the sound emitted with each stroke.

The GRIP EXTEND and GRIP EXTEND PLUS top-sheets enable you to transmit even greater spin in every phase of the game through their increased elasticity and impressive level of grip.

The SPIN-DRIVE 3D technology is the optimisation of 3 performance settings in the top-sheet's pimples: shape, size and density. Each TARGET covering features its own unique combination so as to reach a very specific target: grip + power for TARGET PRO GT, grip + precision for TARGET Ultim, grip + speed for TARGET Force, and grip + sound for TARGET Sound.

The optimisation of the density and geometry of the pimples is one of the keys to performance with the coverings.

- The FAST combination guarantees rapidity and power.
- The SOUND combination guarantees sensation and decibels.
- The SPEED combination guarantees speed and precision.
- The SPIN combination guarantees control and rotation.

TARGET PRO GT

TARGET PRO GT IS A RANGE OF RUBBERS 'MADE IN GERMANY' AND THE RESULT OF A RESEARCH AND DEVELOPMENT PROGRAMME INVOLVING CORNILLEAU EXPERTS, MICHELIN ENGINEERS AND THE WORLD'S LARGEST MANUFACTURER OF RUBBERS. THE TOP PRIORITY FOR THIS PROJECT: REACHING THE HIGHEST LEVEL OF PERFORMANCE AND SAFETY IN TOPSPIN AND COUNTER-TOPSPIN STROKES.

STRIVE FOR EXCELLENCE TARGET PRO GT

Plastic balls have now replaced celluloid balls. Michelin experts have managed to develop a rubber formulation that is entirely compatible with this new type of ball..

So if, like Simon Gauzy and Hugo Calderano, you are looking for initial strokes laden with spin, optimum precision in counter top-spin, sharp kills, ever more power when rallying loop to loop, as well as enhanced safety when taking the counter initiative... then, you have no time to lose: opt for the P-BALL READY technology!

Softer than X51, Target Pro GT-H47 impresses with efficiency and reliability.

71

COMPETITION PLAYER RUBBERS

PILOT FAST

2,0/MAX
RED/BLACK

Pilot Fast is one of the most highly responsive rubbers on the market. With its 40° IN-TENS² sponge associated with its grippiest and most dynamic top-sheet (GRIP EXTEND and FAST technologies), Pilot Fast is a genuine concentration of energy and speed.

PILOT SOUND POWER

2,0/MAX
RED/BLACK

Pilot Sound Power is one of the most sonorous rubbers on the market. With its 35° IN-TENS² sponge associated with its grippiest and most optimised top-sheet (GRIP EXTEND and SOUND technologies), Pilot Sound Power is a genuine concentration of energy and sensation.

DRIVE SPEED

1,8/2,0
RED/BLACK

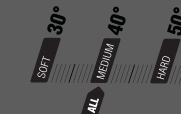

Drive Speed is a traditional covering 'Made in Japan' for offensive play. Its qualities: clean and immediate transmission of energy, substantial and lasting grip, fairly firm 45° sponge for greater precision. A classic for your offensive game.

DRIVE SPIN

1,8/2,0
RED/BLACK

Drive Spin is a traditional all-round covering 'Made in Japan'. Its qualities: very substantial, lasting grip, moderate transmission of energy for greater versatility, fairly soft 40° sponge for heightened sensation. A classic for your all-round game.

START UP'

1,8
RED/BLACK

Endowed with a perfectly optimized grip, START UP' passes on effectively the spin to the ball, while remaining very tolerant in counter-attack and in service return. Especially while topspinning, it makes the difference thanks to its sponge (1,8mm with a hardness of 40°). START UP' is the best you can find to start in competition.

PLAYER
BLADES

THE SWEDISH PERFECTION

This top of the range series of blades is the result of traditional Swedish expertise, which has taken 2 years of development by our teams. Each of these blades - Pure, Vision, Absolum, Glory, Conquest, Origin and now Crown - thus boasts a very strong personality, which translates as an impressive sensation of stability and precision during play, particularly at full pace. These ultra-high performance blades, developed for the most demanding among you, will give you a truly unique experience!

JEAN-PHILIPPE GATIEN BLADES SERIES

Within this field, Swedish know-how stands out as an absolute reference thanks to its great command over the manufacturer in the choice of species of wood, their combination and the gluing assembly.

"Two main factors were key to my success in 1993: the fine-tuning of an innovative game system based on the speed and precision of my forehand, as well as the very high specifications when selecting my equipment. The Jean-Philippe GATIEN Blades Series® is based on my experience and my constant search for efficiency."

Jean Philippe GATIEN®
World Champion
Göteborg 93

JEAN-PHILIPPE GATIEN BLADES SERIES

CROWN ALL+

The genuine combination used by Jean-Philippe Gatien in 1993.

The essence of Swedish expertise is featured by this top of the range 5-plywood blade. The external Anigre layers give the additional dynamism required for finishing shots.

The thicker central structure, associated with the 2 walnut layers, provides this controlling blade great stability and exceptional versatility.

5-Plywood
External layers : Anigre
Weight : 90g
Handle shapes :
FL/ST/AN/CP

PURE CARBON OFF+

A revolutionary 15-ply structure.

15-ply for a unique topspin sensation ! This «elastic» power is also harnessed on the strike, whilst the counter-initiative of comfort and safety are never overlooked.

15-Plywood (13+2 Carbon)
External layers : Limba
Weight: 85g
Handle shapes:
FL/ST/AN/CP

VISION SOFT CARBON OFF+

A " soft carbon " blade which really packs a punch.

A " carbon " sensation which keeps a low profile at low speed, but is capable of releasing a huge burst of power when necessary. Formidably efficient.

7-Plywood (5+2 Carbon)
External layers :
Tiba Mahogany
Weight: 85g
Handle shapes:
FL/ST/AN/CP

ABSOLUM OFF+

Pure power in the pure state.

Devastating power obtained through the use of surface ebony. The central plies are of uniform thickness, heightening the sense of control necessary in blade of this quality.

7-Plywood
External layers : Ebony
Weight: 95g
Handle shapes:
FL/ST/AN/CP

GLORY OFF

impressive output.

A slender blade structure, yet extremely dynamic on impact. The outer Rosewood plies provide precision and vibro-acoustic comfort.

5-Plywood
External layers : Rosewood
Weight: 85g
Handle shapes:
FL/ST/AN/CP

CONQUEST OFF

A sturdy character.

The hard outer Wenge plies make the blade extremely responsive. This incisiveness is perfectly counterbalanced by the clever use of balsa on either side of the triple central birch ply.

9-Plywood
External layers : Wenge
Weight : 85g
Handle shapes:
FL/ST/AN/CP

ORIGIN OFF-

To be consumed without moderation.

The central structure, made up of three uniform Abachi plies gives this blade impressive stability. This translates as impeccable control in every phase of play.

7-Plywood
External layers : Walnut
Weight: 90g
Handle shapes:
FL/ST/AN/CP

THE RIGHT BALANCE

The Hinotec blades are particularly appreciated by the players that make up Team Cornilleau.

Hinotec

THE NOBLEST OF WOODS FOR EACH PLAYING STYLE !

Hinoki, which is present on the external ply and is combined with other carefully selected woods, offers a perfect balance between dynamism, ball handling and precision. The Hinoki thus allows our Hinotec blade range to provide new sensations for each game style, and ensures a pleasurable game, as well as an extremely high quality finish. Another notable aspect: unlike 100% Hinoki blades, which provide extremely high tones, the sound issued on each impact by Hinotec blades range will also delight you.

CAN AKKUZU
FRENCH JUNIOR
CHAMPION 2014

HINOTEC OFF+ CARBON

Favoring top spin smashes, counter loops and active blocks, you seek the maximum power in each of your strokes. Very precise and perfectly controllable when taking the counter-initiative, Hinotec OFF+ Carbon blade is a redoubtable weapon at mid-distance, and its stroke will convince the most demanding player!

5 - Plywood 85 g
1-5: Hinoki FL/ST/AN/CP
2-4: Carbon
3: Kiri

HINOTEC OFF

3 words to describe Hinotec OFF : power, sensation and precision. Resolutely offensive, this blade is easy to control under all circumstances. Experienced players will appreciate the ability to choose from a range of rhythms. The most polyvalent player can boost their game, as long as they are reasonable when it comes to choosing covering..

5 - Plywood 85 g
1-5: Hinoki FL/ST/AN/CP
2-4: Limba
3: Kiri

HINOTEC OFF+

Hinotec OFF - blade suits to any game style. Surprisingly dynamic for a blade of this category, it can also satisfy more experienced players, as long as they choose fast coverings, as well as the most polyvalent players seeking responsiveness in his attacks.

5 - Plywood 85 g
1-5: Hinoki FL/ST/AN/CP
2-4: Limba
3: Ayous

HINOTEC ALL+

A model of tolerance, Hinotec ALL+ blade is reassuring. Whether you are a polyvalent player, or just a beginner, this is for you! Don't get the wrong idea, this blade isn't slow. It provides startling sensations of control and ease of play, without ever letting you down when you need to speed up or strike the killing blow.

5 - Plywood 85 g
1-5: Hinoki FL/ST/AN/CP
2-4: Limba
3: Ayous

LIGHTNESS & PERFORMANCE

AERO

Ultra light blades (70-75 g) Extreme sensations

The concept allows optimal transmission to the handle of shock waves generated on impact with the ball. The hand's sensorial system immediately processes the sensations necessary for perfect response.

SIMON GAUZY

WINNER OF THE GRAND FINAL
OF THE ITTF WORLD TOUR 2013 (U21)

From the early stages with Cornilleau,
Simon has been using the AERO OFF+ Soft Carbon blade!

AERO OFF+ SOFT CARBON

Probably the lightest "Carbon" blade on the market! Its two "High Tech" layers (special blend of carbon and epoxy-resin fibres) will provide the owners of this resolutely offensive blade with unprecedented sensations of power and precision. A perfect choice for those who want to muscle up their game or just discover the joys of carbon!

5-Plywood
75g
FL / CP

AERO OFF

Sensations and speed are greater than ever with the AERO OFF blade. Topspinners will love the incredible feeling of safety and ease of play it offers. AERO technology will also allow you to immediately enjoy perfect control and great comfort.

5-Plywood
75g
FL / CP

AERO OFF-

With the big growth in "new generation" rubbers, often very fast, it is up to offensive players to choose the right blade to limit their counterattack and service-return fouls. This AERO OFF- blade features an extraordinary compromise between speed and security. Topspin enthusiasts will especially appreciate its flexibility as well as its haunting sound delivery.

5-Plywood
75g
FL / CP

AERO ALL+

Rarely has a blade suited so many different playing styles. The AERO ALL+ blade is unique in offering instantaneous comfort and security while effectively making all offensive strokes. Unrivalled multi-use!

5-Plywood
75g
FL / CP

AERO ALL

A real «featherweight», the AERO ALL blade is a sure winner for all players looking for maximum control and sensations. Whether you are a good all-around player or more defensive, you will be convinced after just a few rallies. Enjoy a new range of playing pleasures thanks to AERO technology.

SAFETY

All our tables comply with the European safety standards EN 14468. However, in order to ensure the utmost level of safety, Cornilleau has positioned its products well above this standard.

ASSEMBLY

Cornilleau tables are easy to assemble using clear and detailed diagrams. Many parts are pre-assembled in our factory. User guides and labels on each playing surface describe the main safety guidelines and instructions for use. Average assembly time: 1 hour

GUARANTEE

Cornilleau guarantees its tables against any manufacturing defect for a period of 3 years. This guarantee is extended to 10 years for outdoor tables. This 10-year warranty applies to all the various components, with the exception being the wear parts (wheels, net and net posts).

AFTER SALES SERVICE & SPARE PARTS

Our customers benefit from high quality products and an excellent after sales service. Spare parts can be ordered directly from www.cornilleau-services.com for tables manufactured within a minimum of the last 10 years. Cornilleau after sales service: located at our headquarters in Bonneuil-les-Eaux (France), this department comprises specialists who can answer your questions and offer advice via a simple phone call to:

+33 (0)3 44 80 22 22 from Monday to Friday from 08:00 am to 12:00 noon and 13:30 to 17:30 pm (French time).

PLAYING
STRATEGIES

DEF

DEFINITION: «Traditional» defense, far from the table, generally involving chops (with both forehand and backhand).

MATERIAL: Very often a «long pimple-out» rubber (with or without sponge) on backhand, combined with an «inverted» rubber on forehand. The player can turn his bat.

ADVICES: ALL to OFF- «inverted» rubber, with a sponge hardness < or = 40°. Thickness of the sponge (for «inverted» rubber): less than or equal to 1.8mm. DEF to ALL+ blade.

DEF+

DEFINITION: «Modern» defense, namely a DEF game with frequent counter-attacks generally incorporating smash or topspin shots.

MATERIAL: «long pimple-out» rubber (with sponge) on backhand, combined with an «inverted» rubber on forehand. The player often turns his bat.

ADVICES: ALL+ to OFF+ «inverted» rubber, with a sponge hardness < or = 42.5°. Thickness of the sponge (for «inverted» rubber): from 1.6 to 1.8mm (or even 2.0mm, according to the level of the player). ALL to OFF- blade.

ALL-

DEFINITION:
A passive game based on small pushes and blocks alternating with mid-distance defensive shots. Offensive shots are pretty rare.

MATERIAL: «pimple-out» rubber (short, mid-long or long) or “antispin” on backhand, combined with an «inverted» rubber on forehand. The player barely turns his bat.

ADVICES: ALL to OFF «inverted» rubber, with a sponge hardness < or = 40°. Thickness of the sponge (for «inverted» rubber): from 1.6 to 1.8mm. ALL to ALL+ blade.

ALL

DEFINITION: varied game, more geared around a mid-distance from the table and favoring ball control, placement and variations in spin. The aim is to cause your opponent to commit an error.

MATERIAL: Two «inverted» rubbers.

ADVICES: ALL+ to OFF rubber with a sponge hardness < or = 40°. Thickness of the sponge from 1.8 to 2.0mm. ALL to OFF- blade.

ALL+

DEFINITION: varied and precise game with blocks and counter-initiatives, closer to the table than the ALL- and ALL games. The placement, variations in spin and rhythm are used in order to secure easy-scoring balls.

MATERIAL: Two «inverted» rubbers.

ADVICES: ALL+ OFF covering rubbers (OFF+ drive according to level), with a sponge hardness < or = 40°. Thickness of the sponge from 1.8 to 2.0mm. ALL to OFF blade

OFF-

DEFINITION:
Offensive play with variations in rhythm and spin, most often slightly mid-distance from the table. Basically topspin is widely used here, principally with late contact on the ball and some fairly high, curved trajectories.

MATERIAL: Two «inverted» rubbers.

ADVICES: OFF/OFF+ rubbers, with a sponge hardness < or = 42.5° on both sides. Thickness of the sponge from 1.8 to 2.0mm. ALL+ to OFF+ blade.

OFF

DEFINITION: Complete offensive play, combining fast strokes close to the table and variations in rotation at mid-distance from the table. The topspins are varied and often powerful, accentuated blocks and the player especially mobile.

MATERIAL: Two «inverted» rubbers.

ADVICES: OFF+ rubber with a sponge hardness > 40° on forehand and < or = 42.5° on backhand. Thickness of the sponge from 2.0mm to max. OFF- to OFF+ blade.

OFF+

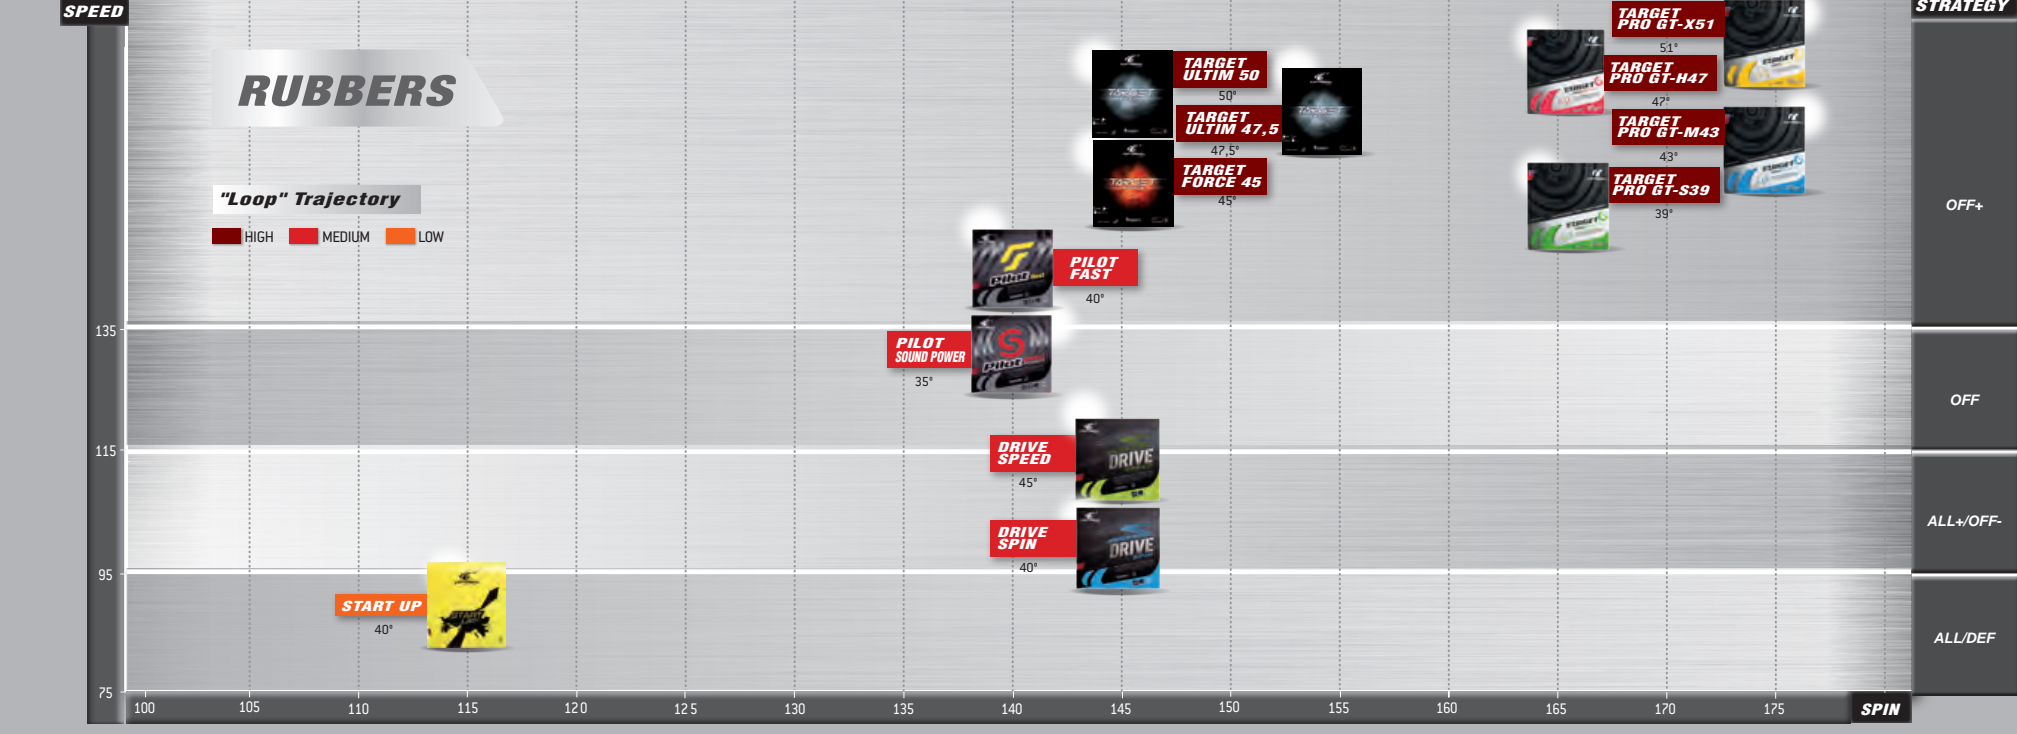

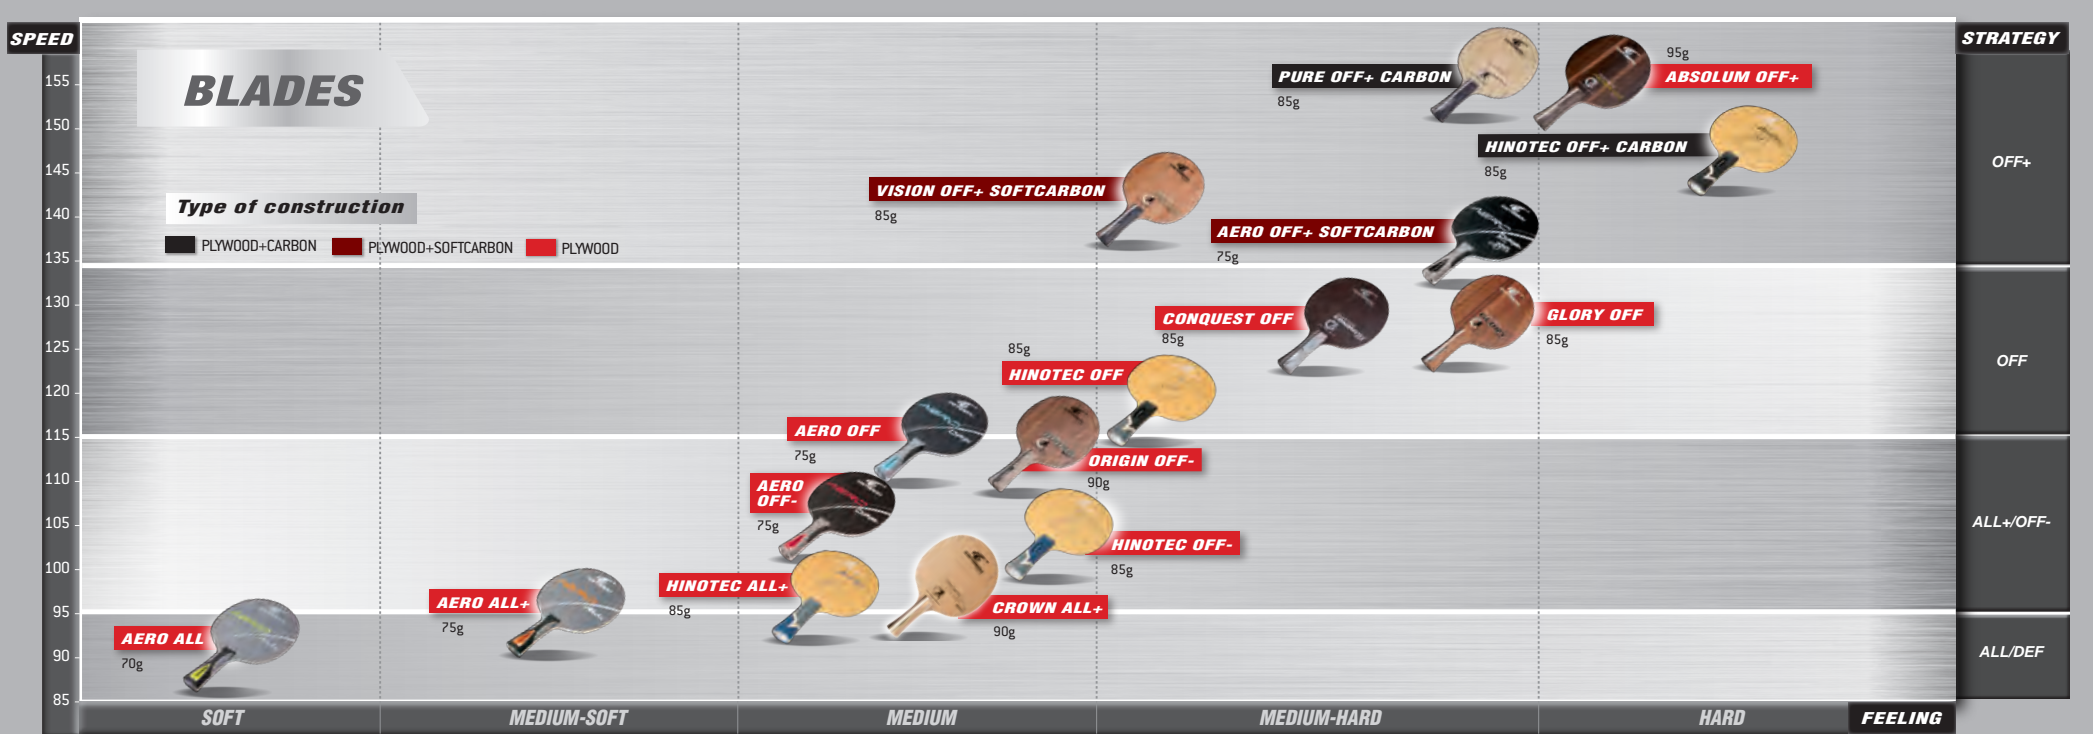

DEFINITION: Very offensive style where taking the initiative is the absolute priority. The player moves about close to the table, returning the ball very early using topspin smashes, loops or active blocks. The player may also move away to a mid-distance from the table with wide-ranging and powerful topspins.

MATERIAL: Two «inverted» rubbers. Possible use of short «pimple-out» rubber on one of the two sides (common in Asia). The ball is then «punched» back on the bounce!

ADVICES: OFF+ rubbers with a sponge hardness > 40° on both sides. Thickness of the sponge from 2.0mm to max. OFF to OFF+ blade.
